

## BITLESS INC RECREATIONAL HIGH POINT AWARD

The Bitless Inc Recreational High Point Award is designed to reward and support Bitless Inc Members who are actively participating bitless or bridle-less in equestrian activities, and demonstrating how safe, reliable, and versatile bitless and bridle-less equines really are!

**Collecting points:** 500 points are required to be logged to apply for the Recreational High Point Award, within a maximum period of 5 years. You must be a Bitless Inc Member continuously for the period of the log book entries. At least 2 people must be participating in the activity, including yourself. Activities must take place in Australia. Activities using a bit cannot be included. Income earning activities cannot be included.

**Filling in the Logbook:** Write the date, how many hours YOU participated in the activity (there is no minimum), a brief description of the activity, who hosted the activity (club, organiser, or friend's name) and the number of points earned.

**10 points are logged per recreational activity day.** This may include any non competitive activity with your horses, including, but not limited to: trail rides, play days, training days, clinics and workshops. If placing ribbons or awards are handed out, then that activity can be logged in the Competitive High Point Award Log Book, including online competitions. Online competitions count as one comp day (not per entry), but if you filmed your entries over more than one day, the additional days can be logged in this Logbook as training, however there must be another participant with you for those days to count.

**50 points are logged for any publicity event.** This is any non competitive event that helps promote bitless, bridle-less or liberty horses. This includes, but is not limited to: featuring in a magazine or online (social media excluded), demonstrations at an ag show or expo, or participating in a local parade. The publicity points can only be added to one log book, not both. Please share your publicity events with Bitless Inc as they happen, so we can promote them further!

**Claiming your High Point:** Activities in the logbook expire after 5 years (the log book can continue onto a new book, but points older than 5 years old will not be counted). Once you have collected 500 points, make a copy of your logbook/s and post the original to: Bitless Inc High Point Award, P.O. Box 3128, Dural NSW 2158 or email your excel logbook to secretary@bitlessinc.org.au. Your High Point Award will be posted to you within 4 weeks. You can then start on another log book to work towards your Silver Award, and then Gold Award.
